

PAPUA NEW GUINEA

POCKLINGTON RIDGE

EXPEDITION FISHING WITH SPORTFISHING PNG
ON THE K20

TARGETING BIG DOGTOOTH TUNA

An almost submerged atoll far off south-east PNG, last fished five years ago.

NOV / DEC 2027

THE MOTHERSHIP, OUR BASE FOR THE EXPEDITION

OFF THE SCHEDULE

I asked our partners at **Sportfishing PNG** to take us somewhere that isn't on their regular schedule. The brief was simple: **big dogtooth tuna**, and ideally water few people ever fish.

Their answer was **Pocklington Ridge**, an almost submerged atoll in the far south-east of PNG, home to giant pelagics and reef species. We'll fish it from the **K20**, their expedition mothership.

It is about as remote as fishing gets. Their last trip out there was **five years ago**, and because of the distance it was never repeated.

WHY WE'RE GOING

"THE CHANCE OF A BIG DOGTOOTH HERE IS VERY HIGH."

5 years

Since the last trip to the ridge

Nov – Dec

Best window with the trade winds

2 × 8–10

Back-to-back trips, anglers each

POCKLINGTON RIDGE · NOV / DEC 2027

BIG DOGTOOTH. FAR FROM ANYWHERE.

REGISTER YOUR INTEREST

Two back-to-back trips in late November and December 2027, each for 8–10 anglers. The detailed itinerary and pricing are being finalised now. Tell me you're in and I'll pencil you down.
